SELECTION FROM THE CLASSIC LINE OF PRIVATE POOLS

SKIMMER POOLS HARMONIA

Outdoor pool with
Visible pool edge

Outdoor pool with
Concealed pool edge

Indoor pool with
Visible pool edge

Indoor pool with
Concealed pool edge

Harmonia skimmer pools offer you the possibility of choosing between visible and concealed pool edge when designing your pool. Perimeter. This option is available regardless of material. Weather stone, wood or other material it is an option for both indoor and outdoor areas. The drawings clearly show the different between self supporting outdoor pools with angled supports as static support and self supporting indoor pools with surrounding concrete basis without angled supports.

outdoor pool

Indoor pool

LEVEL DECK POOLS

Unlike skimmer pool, it is not necessary to scoop insects and leaves out of overflow pool. Surface dirt is guided to the overflow channel. The water is conveyed through the filter system and returned to the pool through the floor inlet channel as clean water. The drawing clearly show the difference between self-supporting outdoor pools with angled support as static and self supporting indoor pools with surrounding concrete basin without angled support.
